

Relationships – TEAM

PSHE and Citizenship | UKS2 | Planning Overview

About the Topic

This unit entitled TEAM (Together Everyone Achieves More) focuses on the positive qualities of a team, learning how to disagree respectfully and communicate effectively. It looks at the key qualities and skills needed for a team to be successful. The lessons address collaborative learning and teach children how to compromise to ensure a group task is completed successfully. Children will discuss different types and effects of unkind behaviour and explore strategies for helping situations by creating team support networks. The unit ends by addressing the importance of caring for team members and the shared responsibilities a team has.

Home Learning

Caring for Others: In this activity, children will focus on the times they have cared for others over the course of a week. They will keep a log and bring it back into school to share.

My Family: In this activity, children will create their own family tree to show their family team. They are asked to include all the people they feel are important to their family team. It is acknowledged within this activity that all family teams are different and that this helps make the world an exciting place to live.

Wider Learning:

Reinforce the lessons learnt during this unit beyond the classroom. For example, on the playground, on school trips and at whole school events. This will ensure the children have the behaviours reinforced in different environments.
