

## R.E and Worldviews in the Nursery - Long Term Plan 25-26

Activities children engage in during their Nursery years, are experiences which provide the building blocks for later development. Starting with things which are familiar to the children, and providing lots of hands-on activities and learning, are an important part of pupils' learning at this stage.

In Quinton Nursery, the children discover the idea of Religious Education through key texts and PSED links. Bible stories suitable for the Early Years are introduced from Autumn 2 to provide a foundation of Religious Education, reflecting the legal expectation that traditions in England are currently predominantly Christian. Some texts that are based around religious festivals, are used as a stimulus to expose Nursery children to the concept of different beliefs through learning about special celebrations, ready for their R.E worldviews learning in Reception.
